*Reignite your purpose. Reclaim your energy.*

# Help Us Help Others

The Rural Nonprofit Networking Group (RNNG), a program of the Greater Fayette Community Foundation, proudly presents the 2025 Day of Education. An event designed to strengthen local nonprofits serving our rural communities. Many leaders can't afford the time or cost of out-of-town conferences. This event brings expert-led training home, making professional development accessible and affordable.

The Day of Education is more than a one-day event, it's an investment in the long-term health of our region. Strong nonprofits lead to stronger communities.

Our nonprofits are doing great work. They just need the tools and support to grow, lead, and sustain their impact. This day offers practical training and powerful inspiration to help them do just that. Join us for a day of connection, learning, and renewal. More than just professional development, it's a chance to pause, reflect, and return to the work with purpose and strength.

As a sponsor for Day of Education, you have an opportunity to "Help Others Help Others" and be recognized as a frontline provider to the enthusiastic individuals and organizations tackling important societal issues in the communities you serve.
